Description

FOMAPAN 100 Classic is a black-and-white negative film designed for taking photographic pictures. The film meets high requirements for fine-granularity, very high resolution, excellent contour sharpness and a wide range of halftones. The nominal speed of ISO100/21 C combined with wide exposure latitude gives very good results even with overexposures up to 1 EV (corresponding to ISO50/18 C) or underexposures up to 2 EV (corresponding to ISO 400/27 C) (exposure value),both without any change in processing.
